24 YANKEE

a real ocean racing/cruising 24 footer with all the advantages of complete portability

Designed by Robert Finch, exclusively for Yankee Yachts, to meet the requirements of the yachtsman who demands the traditional Yankee quality in a trailer-launchable, blue water, racing/cruising 24. Built with the same sound craftsmanship and detail made famous by the Yankee Dolphin and Yankee 30.

A high aspect sailplan, self-righting, high ballast/displacement ratio sloop with full headliner, full hull liner, dinette, enclosed head and elevating cabin top providing 6'2" headroom, the brand new Yankee 24 offers unbelievable quality in a trailable 24'!

l.o.a. 23'9" / l.w.l. 20'0" / beam 7'10 3/4"
draft (retractable keel) board up 1'8"; down 4'8" / sail area 226.8 sq. ft.

The Yankee 24 is a full sized ocean-going 24 with large sail plan capability yet conveniently trailable providing maximum flexibility of use and storage.

Well engineered, on-the-boat hardware makes it easy to rig the Yankee 24 on the trailer or afloat

Everything needed for raising or lowering the mast is always on board and with a few simple steps the Yankee 24 is ready to sail... duck under a bridge... or head for home.

With built-in steadying gear, removable mast roller on the standard bow pulpit and the heavy duty cast mast hinge, the Yankee 24 is rigged quickly and easily by using the boom as a powerful lever and the main-sheet, backstay and sheet winch as lifting tackle.

... and the same easy steps give you access to many restricted clearance waterways

... trailability plus built-in stability!

A 600 lb. lead filled stub keel and 250 lb. lead and fiberglass centerboard give the Yankee 24 great stability and self-righting characteristics.

Excerpt from film of tests shows that, *even with the centerboard fully retracted*, the Yankee 24 snaps quickly upright from a full knockdown position.

Mast in position to raise with heavy cast hinge already pinned, gooseneck attached to heel track and steady wires fastened.

Backstay hardware with quick release pin and simple backstay tackle which eliminates the need for resetting turnbuckle adjustment each time mast is set.

Yankee Yachts' famous fine craftsmanship brings below-deck luxury to the trailable 24 footer

Full molded fiberglass headliner and hull liner with typical Yankee Yachts craftsmanship in lavish mahogany trim below decks gives the Yankee 24 a handsome low maintenance interior. Enclosed head, ample storage and counter space, convertible dinette provide true luxury in 24 feet.

Every Yankee 24 hull undergoes a water test in the company test tank.

Lifting the "pop-top" provides full 6'2" headroom. Optional acrilan side curtains shown make a comfortable, roomy cabin in all weather.

Fold down transom section forms strong outboard motor bracket with no extra pieces to stow.

Scabbard type removable inboard rudder "plugs in" to well providing solid action rudder post.

...and ALL these quality features are STANDARD on the Yankee 24

- 600 lbs. internal lead ballast keel plus 250 lbs. lead in solid fiberglass retractable keel. Total ballast 850 lbs.
- Hull is 100% hand lay-up molded fiberglass with molded in contrasting boot top strips.
- Full interior fiberglass headliner and hull-liner for beauty and insulation from noise and condensation.
- Pop Top — unique design of the 5' x 5' "Pop Top" affords full 6'2" standing head room in the main cabin without compromising seaworthiness in any way. All hardware for use of the Pop Top is supplied as Standard Equipment including stainless steel supports and lifting sling and chrome hold-down clamps. Acrilan side curtains as shown in brochure can be found in the Optional Equipment List.
- Fold down fiberglass outboard engine bracket built into transom for easy motoring.
- All interior cushions in high quality foam rubber upholstered in "Bolta Flex" expanded vinyl.
- Teak trim on companionway.
- Varnished mahogany bulkheads and interior trim.
- Mahogany hanging locker with shelf over.
- Convertible dinette with table of formica with mahogany trim.
- Dinette seats molded with storage compartments underneath.
- Molded in double forward berth with storage under.
- Eight standard port lights (windows).
- All through-hulls fitted with valves.
- Galley with 13 gallon water tank, sink, pump, ice box, and stove compartment.
- Two mahogany drawers and two lockers with mahogany doors in galley.
- 7' quarter berth.

PLUS this fine STANDARD equipment

- Dacron mainsail and jib.
- Two Seaboard No. 7205 double action sheet winches with handle.
- Bow pulpit, mast carrier, all gear for shorthanded or singlehanded raising and lowering of mast.
- Aluminum mast and boom, clear anodized, custom elliptical shape with one piece stainless steel sail track.
- Stainless steel standing rigging.
- Dacron running rigging including jib sheets and mainsheet.
- Stainless steel chain plates, stemhead fittings, turnbuckles and toggles.
- Marinium, chrome, or stainless steel hardware including three mooring cleats, two jib sheet cleats and mainsheet cam-cleat.
- Deluxe custom outhaul for mainsail. Single handed operation — 12" adjustment, 4-to-1 purchase.

Centerboard winch with removable handle mounted on enclosed head bulkhead out of the way yet readily accessible.
